

Career Objective

Motivated Computer Science and Engineering Graduate with expertise in Python Programming, Machine Learning, Strong foundation in SQL and Web technologies. Seeking an Entry Level role to build scalable applications using Python, apply my design and Problem solving skills in data driven projects. Passionate about innovation, eager to learn and contribute to a dynamic team.

Professional Skill

- Programming Languages : Python, SQL, C Programming
- Libraries : NumPy, Pandas, Scikit-learn, OpenCV
- Database & Backend : MySQL, Flask, API Development
- Tools : GitHub, Postman, VS Code
- Domain : Machine Learning

Soft Skill

- Communication
- Leadership
- Teamwork and Collaboration
- Debugging

Education

B.E. Computer Science and Engineering

P.A. College of Engineering and Technology, Coimbatore | CGPA: 8.46

2026

Higher Secondary(HSC)|(SSLC)

Lourde Matha Convent Matric Hr. Sec. School, Udumalpet | (HSC-72%) (SSLC-81%)

2022

Projects

Swarm Intelligence - Based Crowd Anomaly Detection System

- Developed an AI-based surveillance system that detects abnormal crowd behavior
- Using RIWPSO-based segmentation, deep CNN feature extraction (MobileNetV2) and hybrid ensemble learning
- SVM, Random Forest, LSTM improving detection accuracy and reducing false positives in real-time and offline analysis.
- Integrated a user-friendly interface for real-time Detection and Visualizations

Internship

Intern | SecureKloud Technologies Ltd | Chennai (Onsite)

May 2026 – Aug 2026

- Learned and maintained Python-based applications while collaborating with the development team on real-world software projects.
- Worked with Real time Data Analyzation, APIs, databases, and code optimization while following industry coding standards.

Certifications

- Machine and Deep Learning using Python (Workshop)
- Fundamentals of Data Science With Python (Infosys Springboard)
- Professional Diploma in Computer Application at (Computer Software Education-Pvt)
- SQL Basics (Hacker Rank)

Languages

- Tamil
- English
